Subject: Update on Public Outreach Program

Attached is a brief summary of recent activities that are part of the CALFED Bay-Delta Program Public Outreach. The two public workshops in August and September are summarized in addition to the first public meeting that was held in Stockton on September 25.

Additionally, there is a brief summary describing outreach materials that are being provided to assist the general public in understanding our Program. These materials will be produced on a regular basis as the Program moves through the process to provide a periodic update on the status of the Program.
